## Data Documentation

Information, documentation and correspondence relating to this data.

(Please note that this is informal documentation intended to help users.  
It is not a polished document. Additions/corrections are welcomed at [info@motu.org.nz](mailto:info@motu.org.nz).)

1. Main Motu contact for this data:

Andrew Coleman

2. Other contacts for this data:

Type in a non-Motu contact for this data, if applicable.

3. Variables:

Various: see spreadsheet.

4. Data keywords:

Housing markets, population ageing

5. Dataset abstract:

This spreadsheet contains data on the length of time people have spent in their houses at each census date, with particular reference to the population over 65. The data are manipulated to calculate the probability of people moving after they turn 65.

6. Motu Working Papers using this data set.

Coleman, Andrew. April 2010. "Squeezed in and squeezed out: the effects of population ageing on the demand for housing," Motu Working Paper, 10-01.

7. Additional notes.

Data was obtained from standard census tables produced online by Statistics New Zealand.

8. Email correspondence.
