High Commission

# What institutions and processes would support accelerated low-emission pathways that are integrated across sectors and broadly supported?

- We need meaningful institutional change *within* government.
- We need an institution with an *advocacy* mandate.
- We need to recognise the power of *localism* in mitigating climate change.
- We need to *integrate* climate change mitigation into all relevant legislation.
- We need to encourage *grass roots* movements.
- We need to involve *youth* through institutions and processes.
